The group quarters population includes all people not living in households. Two general categories of people in group quarters are recognized: the institutionalized population and the noninstitutionalized population.

Institutional population is defined as persons under formally authorized, supervised care or custody in institutions at the time of enumeration; such as correctional institutions, nursing homes, and juvenile institutions.

Non-institutional population is defined as persons not living in a household that are also not under care or custody. Includes all people who live in group quarters other than institutions, such as college dormitories, military quarters, and group homes. Also included are staff residing at institutional group quarters.

*Town data includes Villages and CDPs within Town.
