Below are some tips that will hopefully help you prepare.

Polish your Resume

Make sure all of your information is up to date! Remember you can tailor your resume to each position you are applying for.

Research the Business

Look through the list of businesses and determine who you absolutely want to visit. Research each company to learn about the business. Be sure to find the career section to see what their current job openings are. Know the skills needed for the jobs you are applying to.

14th Annual Fall Job Fair

(Continued) Tips that will hopefully help you prepare.

Make a great first impression

Shake hands palm to palm, be firm but don't crush. Prepare your 0-15 second sales pitch. Dress conservatively and relevant to the fields of interest.

Prepare for Questions!

You are likely to be asked questions about yourself, your skills, your motivation, career goals and more. Be prepared for these questions, practice your responses!

Prepare to ask questions!

Most of the time, you will be asked if you have any questions, make sure to have some! Examples: what kind of training to expect, what are the major challenges the new hire may face, what do they like most about the company. Always be sure to know what to expect next!

Day of the Job Fair

Arrive early, give yourself plenty of time so you don't feel rushed! If you feel nervous, take a practice run with a business of low interest. This will help get rid of the jitters before talking to your top choices! Give yourself a pep talk! Recruiters at a Job Fair are there because they need employees, remember this and be confident!

After the Job Fair

Don't forget to actually apply for the positions you saw at the Job Fair! Send a thank you email to the person you met with a day after you applied. Be sure to include that you have applied for the position and you're looking forward to hearing back from the company.
